CHAPTER 2 – GAME RULES

2.04B – CAROLINA PICK 3 GAME RULES

- A. The purpose of Carolina Pick 3 is to generate revenue for the NCEL and ultimately, education programs in North Carolina through the operation of a specially-designed lottery game that will award prizes to ticket holders matching specified combinations of numbers randomly selected in twice daily drawings.
- B. During each Carolina Pick 3 drawing, a set of three (3) single-digit numbers between 0 and 9 will be selected.
- C. The sale and/or purchase of Carolina Pick 3 tickets may be conducted only at such locations as the Executive Director shall contract with and/or license and must comply with all governing laws, policies and rules of the NCEL.
- D. Play Characteristics and Restrictions
1. A Play is defined as a set of two (2) or three (3) single-digit number selection for a specific draw, for a specific amount and a specific play type.
 2. Drawing Methods: Carolina Pick 3 digits may be selected via drawing machines that draw numbered balls or via certified random number generator (“RNG”), which is a computer program that is certified by an independent third party to randomly select drawing numbers.
 3. Play types are as follows:
 - a. Exact- the player’s set of three (3) single-digit numbers must match the winning three (3) single-digit numbers in the exact order drawn. For a drawing machine that draws numbered balls, draw order is defined as the final resting position of the balls as they appear from the front of the drawing machine from left to right. For a certified RNG, draw order is defined as the order of the single-digit numbers drawn from first to third.
 - b. Any- the player’s set of three (3) single-digit numbers must match the winning three (3) single-digit numbers in any order drawn.
 - c. 50/50- combines an Exact and Any play type on a single play.
 - d. Combo- plays all possible Exact combinations of the player’s set of three (3) single-digit numbers on one ticket. A 50¢ base play costs \$1.50 to \$3 and a \$1 base play costs \$3 to \$6, depending on the numbers selected by the player.
 - e. 3-Way- a set of three (3) single-digit numbers with two digits that are the same.
 - f. 6-Way- a set of three (3) single-digit numbers with three unique digits.
 - g. Front Pair – a set of two (2) single-digit numbers, specified by the purchaser, to match in exact order the first two (2) single-digit numbers selected in the applicable drawing.

 - i. 1-OFF[®] - one (1) of the twenty-six (26) three-digit numbers printed on the player's ticket matches the winning three (3) single-digit numbers, in the order that the winnings numbers are drawn. The twenty-six (26) 1-OFF numbers are all the possible combinations in which each of the three (3) digits is one (1) number higher or lower than each of the player's three (3) digits. 1-OFF plays with selected numbers matching all numbers drawn do not win a prize.
4. Drawing times are as follow:

The use of mechanical, electronic, computer generated or any other non-manual method of marking Play Slips is prohibited.
